CAUTIONARY NOTE TO UNITED STATES INVESTORS

This prospectus has been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. Unless otherwise indicated, all reserve and resource estimates included in this prospectus, in any prospectus supplement or in any documents incorporated by reference herein or therein have been, and will be, prepared in accordance with Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Projects (“NI 43-101”) and the Canadian Institute of Mining, Metallurgy and Petroleum classification system. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects.

Canadian standards, including NI 43-101, differ significantly from the requirements of the SEC, and reserve and resource information contained in or incorporated by reference into this prospectus and any prospectus supplement may not be comparable to similar information disclosed by U.S. companies. In particular, and without limiting the generality of the foregoing, these documents use the terms “measured resources”, “indicated resources” and “inferred resources”. Investors are advised that, while such terms are recognized and required by Canadian securities laws, the SEC does not recognize them. The requirements of NI 43-101 for the identification of “reserves” are also not the same as those of the SEC, and reserves reported by the Company in compliance with NI 43-101 may not qualify as “reserves” under SEC standards. Under U.S. standards, mineralization may not be classified as a “reserve” unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. Investors are cautioned not to assume that any part of a “measured resource” or “indicated resource” will ever be converted into a “reserve”. Investors should also understand that “inferred resources” have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that all or any part of “inferred resources” exist, are economically or legally mineable or will ever be upgraded to a higher category. Under Canadian rules, estimated “inferred resources” may not form the basis of feasibility or pre-feasibility studies except in rare cases. In addition, disclosure of “contained ounces” in a mineral resource is permitted disclosure under Canadian regulations. However, the SEC normally only permits issuers to report mineralization that does not constitute “reserves” by SEC standards as in place tonnage and grade, without reference to unit measures. Accordingly, information concerning mineral deposits set forth in this prospectus, in any prospectus supplement or in any documents incorporated by reference herein or therein may not be comparable with information made public by companies that report in accordance with U.S. standards.

See “Glossary of Mining Terms” in this prospectus for a description of certain of the mining terms used in this prospectus, in any prospectus supplement and in the documents incorporated by reference herein and therein.

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

This prospectus and the documents incorporated by reference herein contain “forward looking statements” and/or “forward looking information”, which include future oriented financial information, within the meaning of the “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995 and Canadian securities laws. All statements other than statements of historical fact are forward looking statements. The words “expect”, “believe”, “anticipate”, “contemplate”, “target”, “plan”, “may”, “will”, “intend”, “estimate”, and similar expressions identify forward looking statements, although these words may not be present in all forward looking statements. Forward looking statements included in this prospectus include, without limitation, statements in respect of an offering of Securities, information as to the Company’s strategy, plans or future financial or operating performance, such as the Company’s expansion plans, project timelines, production plans, projected production cash flows or expenditures, operating cost estimates, mining or milling methods, projected exploration results and other statements that express management’s expectations or estimates of future performance.

The Company cautions the reader that such forward looking statements involve known and unknown risks that may cause actual results to be materially different from those expressed or implied by the forward looking statements. Such risks include, but are not limited to: the possibility that commodity prices and foreign exchange rates may fluctuate; the possibility that general economic conditions may deteriorate; the inability to meet production level and operating cost estimates; inaccuracy of mineral resource and reserve estimates; the demand for, and cost of, exploration, development and construction services; the risks related to future exploration programs, including the risk that future exploration will not replace mineral resources and mineral reserves that become depleted; inherent risks associated with mining and processing including environmental hazards; the failure to achieve or maintain projected production levels; the increased uncertainty as to the Company’s ability to achieve or maintain projected production levels at the Lac des Iles mine due to the fact that the Company’s production decisions are not based on feasibility studies of mineral reserves demonstrating economic and technical viability; the pursuit of any particular transaction or strategic alternative in connection with the strategic review process being undertaken in respect of the sale of the Company’s Quebec-based gold division; the potential uncertainty related to title to the Company’s mineral properties; the risk that the Company may not be able to obtain external financing necessary to continue its expansion and productions plans; the Company’s dependence on a third party for smelting and refining the concentrate that is produced at the Lac des Iles mill; employment disruptions, including in connection with collective agreements between the Company and unions; environmental and other regulatory requirements; the costs of complying with environmental legislation and government regulations; the risk that permits and regulatory approvals necessary to conduct operations will not be available on a timely basis, on reasonable terms or at all; loss of key personnel; competition from other producers of platinum group metals (“**PGMs**”) and gold and from potential new producers; risks involved in current or future litigation (including class actions) or regulatory proceedings; the development of new technology or new alloys that could reduce the demand for palladium; the ability of the Company to comply with the terms of its credit facility, senior secured notes or future credit facilities; risks related to the Company’s hedging strategies; lack of infrastructure necessary to develop the Company’s projects; and the ability of the Company to maintain adequate internal control over financial reporting and disclosure controls and procedures.

Forward looking statements, including future oriented financial information, are necessarily based on a number of factors and assumptions that, while considered reasonable by management, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The factors and assumptions contained in this prospectus, which may prove to be incorrect, include, but are not limited to the following:

- that the Lac des Iles mine, the Sleeping Giant mill complex and the Vezza gold mine will be and remain viable operationally and economically;
- expectations for mill feed head grade, recovery rates and mill performance will be as expected at the Lac des Iles mine;
- the plans for mine production, mine development, mill production and exploration will proceed as expected and on budget;
- market fundamentals will result in reasonable demand and prices for palladium, gold and by-product metals in the future;
- the Company will not be subject to any environmental incidents, significant regulatory changes or material labour disruptions;

- the Company and its contractors will be able to attract and retain sufficient qualified employees; and
- financing for the Company's expansion and production plans will be available on reasonable terms.

The forward looking statements are not guarantees of future performance.

All of the forward looking statements made in this prospectus are qualified by these cautionary statements and other cautionary statements or factors contained herein, and there can be no assurance that the projected results or developments will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. THE COMPANY

This summary highlights information contained elsewhere in this prospectus and the documents incorporated by reference herein. It does not contain all the information that may be important to you. You should carefully read the entire prospectus, including the documents incorporated by reference herein. See “Documents Incorporated by Reference” and “Available Information” in this prospectus. You should also carefully consider the matters discussed under “Risk Factors” in this prospectus.

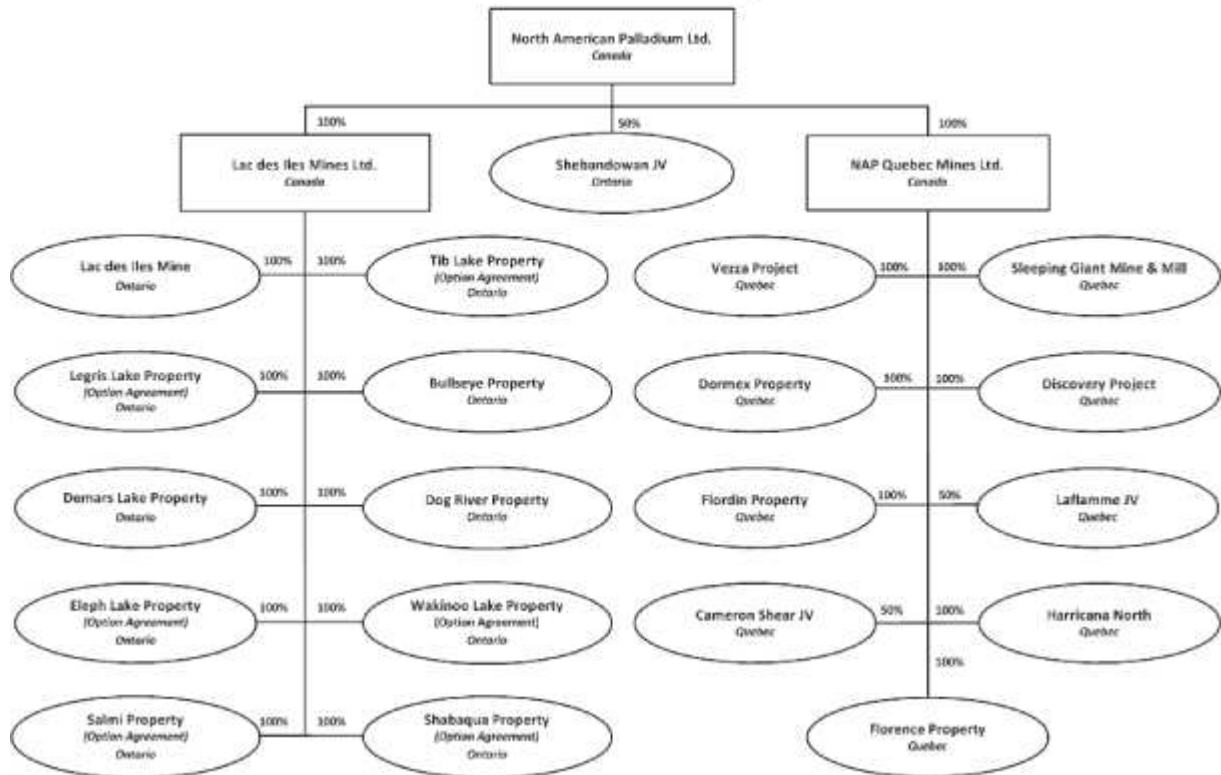

Corporate Structure

The Company is the successor to Madeleine Mines Ltd., a company incorporated under the *Mining Companies Act* (Québec) by letters patent in 1968. In January 1992, Madeleine Mines Ltd. was amalgamated with 2945-2521 Québec Inc. and the amalgamated company was wound up into the federally incorporated parent company, 2750538 Canada Inc. This entity changed its name to Madeleine Mines Ltd. and, in June 1993, the name was changed to North American Palladium Ltd. The Company continues to exist under the *Canada Business Corporations Act* (“**CBCA**”).

The Company has two wholly owned subsidiaries: Lac des Iles Mines Ltd. (“**LDI**”), and NAP Québec Mines Ltd. (“**NAP Québec**”).

The following chart describes the Company’s subsidiaries as at the date hereof. The percentage ownership is indicated for each entity. Each of the option agreements referenced below has not been fully exercised.

North American Palladium Ltd. – Corporate Chart

Description of the Business

The Company's material property is the Lac des Iles property (including the Lac des Iles palladium mine). The Company also owns, but does not consider to be material properties of the Company, the Sleeping Giant gold mine and mill complex and the Vezza gold mine located in the Abitibi region of Quebec, north of Val d'Or. Other advanced projects include the Flordin property, the Discovery project and the Shebandowan West project. As previously disclosed, the Company is exploring divestiture opportunities with respect to its gold assets.

The Lac des Iles mine, the Company's flagship mine, is one of the world's two primary palladium producers. Located approximately 85 kilometres northwest of Thunder Bay, Ontario, the Lac des Iles mine started producing palladium in 1993. The property consists of an open pit, a ramp-accessed underground mine, a shaft accessed underground mine (under construction), and a mill with a nominal capacity of approximately 15,000 tonnes per day. The primary deposits on the property are the Roby Zone and the Offset Zone, both disseminated magmatic nickel copper-PGM deposits. The Company has also identified other mineralized areas close to or on the Lac des Iles mine, including the Cowboy Zone, the Outlaw Zone, the Sheriff Zone and the North VT Rim. Infill drilling at the Offset Zone (completed to the end of March 2012) was successful in converting a certain amount of the Company's indicated resources to measured resources, thereby increasing the confidence in the grade distribution for mine planning purposes. With a minimum cut-off of 3.5 grams per tonne palladium, results indicated a total of 14.2 million tonnes of measured and indicated resources (2.38 million contained palladium ounces) grading 5.22 grams per tonne palladium. Inferred resources also increased to 6.3 million tonnes (0.89 million contained palladium ounces) grading 4.40 grams per tonne palladium. The Lac des Iles underground mine is being expanded to transition from mining via ramp access to mining via shaft while utilizing a high volume bulk mining method. The mine expansion is currently underway .

The AIF contains additional information on the business and properties of the Company. See "Documents Incorporated by Reference".

Recent Developments

As previously disclosed, the Company continues to evaluate opportunities for the divestiture of its gold assets and undertakings located in Quebec, which are held by NAP Quebec Mines Ltd., including the Sleeping Giant gold mine and mill complex, the Vezza gold mine and the other exploration projects including the Flordin property and the Discovery project, and all associated rights, privileges, agreements, permits and associated infrastructure and equipment. As part of the Company's ongoing consideration of opportunities for divestiture, which provided an indication of the value of these assets in late 2012, the Company believes that the current value of such assets is likely less than their book value. A material write-down of the book value of such assets will be considered by the Company in due course.

On January 22, 2013 the Company announced the appointment of David Langille as its new Chief Financial Officer, replacing Jeff Swinoga who resigned January 4, 2013. Mr. Langille has over 26 years of experience as a finance executive with public companies and has been a member of the Institute of Chartered Accountants of Ontario and the Society of Management Accountants of Ontario since 1987.

On November 30, 2012, the Company announced completion of its flow-through financing through which it sold 2,425,000 flow-through shares at a price of \$1.65 per share for gross proceeds of \$4,001,250. The proceeds will be used for eligible exploration activities and mine expansion expenditures at the Lac des Iles property and other greenfield properties.

On November 7, 2012, the Company announced its financial and operational results for the third quarter ending September 30, 2012. In the third quarter of 2012, the Company's Lac des Iles mine produced 39,908 ounces of payable palladium, bringing the nine month total to 119,685 ounces. The Company also disclosed the mine expansion expenditures totaled \$93 million for the nine month period. The Company also indicated that the pursuit for divestiture opportunities for its gold assets is ongoing and that mine development expenditures at the Vezza gold mine totaled \$22.7 million for the nine month period ended September 30, 2012.

On September 13, 2012, the Company announced that the Board of Directors appointed Andre J. Douchane as NAP's interim Chief Executive Officer, replacing William J. Biggar who retired on September 30, 2012.

On July 31, 2012, the Company completed a \$43 million offering of convertible debentures (the "**Debentures**") to fund the Lac des Iles mine expansion and for general corporate purposes. The Debentures are convertible at the holder's option into Common Shares at a conversion price of \$2.90 per Common Share.

RISK FACTORS

An investment in the Securities involves risk. In addition to the other information contained in this prospectus, the AIF and the documents incorporated by reference herein, prospective investors should carefully consider the factors set out below and in the applicable prospectus supplement in evaluating the Company and its business before making an investment in the Securities. If any event arising from these risks occurs, the Company's business, prospects, financial condition, results of operations or cash flows could be adversely affected, the trading price of the Securities could decline and all or part of any investment in the Securities may be lost. Additional risks and uncertainties not currently known to the Company or that the Company currently deems immaterial may also materially and adversely affect the Company's business, prospects, financial condition, results of operations or cash flows.

Risks Related to the Securities

Future sales or issuances of equity securities could decrease the value of the Common Shares and Debentures, dilute investors' voting power and reduce the Company's earnings per share.

The Company may sell additional equity securities in subsequent offerings and may issue additional equity securities to finance future acquisitions and other projects and to satisfy its obligations pursuant to the exercise of convertible securities.

Sales or issuances of a substantial number of equity securities, or the perception that such sales could occur, may adversely affect prevailing market prices for the Common Shares and Debentures. With any additional sale or issuance of equity securities, investors will suffer dilution of their voting power and the Company may experience dilution in its earnings per share.

The Common Shares and Debentures are publicly traded and are subject to various factors that have historically made the Company's share price volatile.

The trading price of the Common Shares and Debentures have been, and may continue to be, subject to large fluctuations and, therefore, the trading price of the Company's securities convertible into, or exchangeable for, the Common Shares may also fluctuate significantly, which may result in losses to investors. The trading price of the Common Shares and Debentures may increase or decrease in response to a number of events and factors, including:

- the Company's operating performance and the performance of competitors and other similar companies;
- volatility in palladium, gold and other metal prices and expectations for future prices;
- volatility in currency exchange rates;
- the public's reaction to the Company's press releases, other public announcements and the Company's filings with the various securities regulatory authorities;
- changes in earnings estimates or recommendations by research analysts who track the Common Shares or the shares of other companies in the mineral resource sector;
- changes in general economic and/or political conditions;
- the number of Common Shares to be publicly traded after any offering;
- the arrival or departure of key personnel;
- acquisitions, strategic alliances or joint ventures involving the Company or its competitors;
- the risks listed under the heading "Cautionary Note Regarding Forward Looking Statements."
- the market for all mineral resource sector securities;
- the breadth of the public market for the Securities; and
- the attractiveness of alternative investments.

In addition, the market prices of Securities may be affected by many variables not directly related to the Company's success and that are, therefore, not within the Company's control, including other developments that affect the market for all mineral resource sector securities, the breadth of the public market for the Common Shares and Debentures, and the attractiveness of alternative investments. The effect of these and other factors on the market price

Table of Contents

of the Common Shares on the exchanges on which the Common Shares trade has historically made the Company's share price volatile and suggests that the Company's share price (and the price of the Debentures) could continue to be volatile in the future.

The Securities may not be listed and there may not be an established trading market for those securities. You may be unable to sell the Securities at the prices you desire or at all.

There is no existing trading market for the Debt Securities, Warrants, or Subscription Receipts. As a result, there can be no assurance that a liquid market will develop or be maintained for those securities, or that you will be able to sell any of those securities at a particular time (if at all). We may not list the Debt Securities, Warrants, or Subscription Receipts on any Canadian or U.S. securities exchange, and the Common Shares may be delisted or suspended. The liquidity of the trading market in those securities, and the market price quoted for those securities, may be adversely affected by, among other things:

- changes in the overall market for those securities;
- changes in our financial performance or prospects;
- changes or perceived changes in our creditworthiness;
- the prospects for companies in our industry generally;
- the number of holders of those securities;
- the interest of securities dealers in making a market for those securities; and
- prevailing interest rates.

The Debt Securities may be unsecured debt of the Company and, if so, will rank equally in right of payment with all other existing and future unsecured debt of the Company.

The Debt Securities may be unsecured debt of the Company and, if so, will rank equally in right of payment with all other existing and future unsecured debt of the Company. Unless collateralized or guaranteed, the Debt Securities will be effectively subordinated to all existing and future secured debt of the Company to the extent of the assets securing such debt. If the Company is involved in any bankruptcy, dissolution, liquidation or reorganization, the secured debt holders would, to the extent of the value of the assets securing the secured debt, be paid before the holders of unsecured debt securities, including if applicable, the Debt Securities. In that event, a holder of Debt Securities may not be able to recover any principal or interest due to it under the Debt Securities.

Unless the Debt Securities are guaranteed or collateralized in some other way, holders of the Debt Securities will effectively be subordinated to the claims of the holders of third party indebtedness of the Company's subsidiaries.

The Company conducts its operations through subsidiaries and to the extent any such subsidiary has or incurs indebtedness with a third party, the holders of the Debt Securities will, unless the Debt Securities are guaranteed or collateralized in some other way, be effectively subordinated to the claims of the holders of such third party indebtedness, including in the event of liquidation or upon a realization of the assets of any such subsidiary.

Risks Related to the Company

Investors should also carefully consider the risks described under the heading "Risk Factors" in the AIF and the Company's other publicly filed documents which are incorporated herein by reference. In addition, investors in Securities should also consider the following additional risks.

Mineral resource and reserve estimates may prove inaccurate

The Company cannot be certain that its mineral resource and reserve estimates are accurate and cannot guarantee that it will recover the expected quantities of metals. Future production could differ dramatically from such estimates for the following reasons:

- actual mineralization or ore grade could be different from those predicted by drilling, sampling or technical reports;
- increases in the capital or operating costs of the mine;

Table of Contents

- changes in the life-of-mine plan; or
- the grade of ore may vary over the life of the mine and the Company cannot give any assurances that any particular mineral reserve estimate will ultimately be recovered.

The occurrence of any of these events may cause the Company to adjust its mineral resource and reserve estimates or change its mining plans, which could negatively affect the Company's financial condition and results of operations. Moreover, short-term factors, such as the need for additional development of the ore body or the processing of new or different grades, may adversely affect the Company.

Inability to meet production level and operating cost estimates.

Planned production levels and operating costs are estimates, with the estimates in respect of the Lac des Iles mine being based on the Company's experience in operating such mine. All of the Company's estimates are subject to numerous uncertainties, many of which are beyond the Company's control. The Company may have difficulties attracting and maintaining a sufficient amount of qualified labour to meet projected production levels. In addition, there may be increased uncertainty as to the Company's ability to achieve or maintain projected production levels at the Lac des Iles mine due to the fact that the Company's production decisions are not based on feasibility studies of mineral reserves demonstrating economic and technical viability. The Company cannot give assurances that its actual production levels will not be substantially lower than its estimates or that its operating costs will not be materially higher than anticipated. Failure to meet production levels and operating costs estimates could adversely affect the Company's results of operation.

Increased competition in the mining industry

The mining industry is intensely competitive. The Company may be at a competitive disadvantage in acquiring additional mining properties if it must compete with companies that have greater financial resources, operational experience and technical capabilities than the Company. As a result, for reasons beyond its control, the Company may not be able to acquire mining properties in the future on acceptable terms.

Exploration of divestiture opportunities in respect of the Company's gold assets

No assurances can be made that the strategic review process announced by the Company in respect of its gold assets will result in the Company pursuing any particular transaction or strategic alternative in respect thereof or that a profit will be obtained if the assets were to be divested.

The Company may fail to achieve and maintain adequate internal control over financial reporting pursuant to the requirements of the Sarbanes Oxley Act and equivalent Canadian legislation.

The Company documented and tested during recent years its internal control procedures in order to satisfy the requirements of Section 404 of the Sarbanes Oxley Act ("SOX") and equivalent Canadian legislation. Both SOX and Canadian legislation require management to assess annually the effectiveness of the Company's internal control over financial reporting ("ICFR"). The Company may fail to achieve and maintain the adequacy of its ICFR as such standards are modified, supplemented, or amended from time to time, and the Company may not be able to ensure that it can conclude, on an ongoing basis, that it has effective ICFR in accordance with Section 404 of SOX and equivalent Canadian legislation. The Company's failure to satisfy the requirements of Section 404 of SOX and equivalent Canadian legislation on an ongoing, timely basis could result in the loss of investor confidence in the reliability of its financial statements, which in turn could harm the Company's business and negatively impact the trading price of the Common Shares or the market value of its other securities. In addition, any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm the Company's operating results or cause it to fail to meet its reporting obligations. Future acquisitions of companies, if any, may provide the Company with challenges in implementing the required processes, procedures and controls in its acquired operations. No evaluation can provide complete assurance that the Company's ICFR will detect or uncover all failures of persons within the Company to disclose material information otherwise required to be reported. The effectiveness of the Company's processes, procedures and controls could also be limited by simple errors or faulty judgments. In addition, if the Company expands, the challenges involved in implementing appropriate ICFR will increase and will require that the Company continue to improve its ICFR.

Because the Company is a Canadian corporation and the majority of its directors and officers are resident in Canada, it may be difficult for investors in the United States to enforce civil liabilities against the Company based solely upon the federal securities laws of the United States.

The Company is a corporation organized under the laws of Canada. Many of the Company's directors and officers, and those of some of its subsidiaries and some of the experts named in this prospectus, are residents of Canada or otherwise reside outside of the United States, and all or a substantial portion of their assets, and all or a substantial portion of the Company's assets, are located outside of the United States. As a result, there may be jurisdictional issues should an investor bring an action against directors, officers or experts who are not residents of the United States or in the other jurisdiction of residence. It may also be difficult for you to enforce a judgment obtained in a U.S. court or a court of another jurisdiction of residence predicated upon civil liability provisions of federal securities laws or other laws of the United States or any state thereof or the equivalent laws of other jurisdictions of residence against those persons.

USE OF PROCEEDS

Unless otherwise indicated in an applicable prospectus supplement, the Company anticipates using the net proceeds received from the sale of Securities for exploration and development expenditures at the Lac des Iles mine and to fund exploration and development expenditures at other properties, and for general corporate purposes, which may potentially include future acquisitions or the payment of interest and/or principal of debt obligations. It is anticipated that the Company will invest funds that it does not immediately require in investment grade income securities or short-term marketable securities.

The actual amount that the Company spends in connection with each of the intended uses of proceeds may vary significantly and will depend on a number of factors, including those listed under “Risk Factors” in this prospectus, AIF and documents incorporated by reference.

DIVIDEND POLICY

It is not anticipated that the Company will pay any dividends on its Common Shares in the near future. The actual timing, payment and amount of any dividends will be determined by the Company's board of directors from time to time based upon, among other things, the Company's cash flow, results of operations and financial condition, the need for funds to finance ongoing operations and such other business considerations as the board of directors may consider relevant. As of the date of this prospectus, the Company has never paid any dividends on the Common Shares.

DESCRIPTION OF COMMON SHARES

The authorized share capital of the Company consists of an unlimited number of Common Shares. As of February 11, 2013, there were 177,373,185 Common Shares of the Company issued and outstanding.

Each Common Share entitles the holder thereof to one vote at all meetings of shareholders other than meetings at which only the holders of another class or series of shares are entitled to vote. Each Common Share entitles the holder thereof to receive any dividends declared by the board of directors and the remaining property of the Company upon dissolution.

There are no pre-emptive or conversion rights that attach to the Common Shares. All Common Shares now outstanding and to be outstanding are, or will be when issued, fully paid and non-assessable, which means the holders

Table of Contents

of such Common Shares will have paid the purchase price in full and the Company cannot ask them to pay additional funds.

The Company's by-laws provide for certain rights of its shareholders in accordance with the provisions of the *Canada Business Corporations Act*. Such by-laws may be amended either by a majority vote of the shareholders or by a majority vote of the board of directors. Any amendment of the by-laws by action of the board of directors must be submitted to the next meeting of the shareholders whereupon the by-law amendment must be confirmed as amended by a majority vote of the shareholders voting on such matter. If the by-law amendment is rejected by the shareholders, the by-law ceases to be effective and no subsequent resolution of the board of directors to amend a by-law having substantially the same purpose or effect shall be effective until it is confirmed or confirmed as amended by the shareholders.

Shareholders do not have cumulative voting rights for the election of directors. Therefore, the holders of more than 50% of the Common Shares voting for the election of directors could, if they choose to do so, elect all of the directors and, in such event, the holders of the remaining Common Shares would not be able to elect any directors.

Common Shares offered hereunder may be "flow-through shares" within the meaning of the *Income Tax Act* (Canada). Common Shares offered hereunder may also be issued in lieu of or to fund principal and/or interest of debt obligations. The particular terms and provisions of any such offerings by any prospectus supplement will be described in such prospectus supplement. Common Shares may be offered separately or together with other Securities.

The following is a summary of the Indenture that sets forth certain general terms and provisions of the Debt Securities. Unless otherwise indicated in a prospectus supplement, the Debt Securities will be unsecured obligations. The Indenture also permits us to increase the principal amount of any series of the Debt Securities previously issued and to issue that increased principal amount.

interest at which the Debt Securities will bear interest, in the event we should become involved in a highly leveraged transaction or in the event we have a change in control.

This prospectus does not qualify the issuance of Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to one or more underlying interests including, for example, an equity or debt security, a statistical measure of economic or financial performance including, but not limited to, any currency, consumer price or mortgage index, or the price or value of one or more commodities, indices or other items, or any other item or formula, or any combination or basket of the foregoing items. For greater certainty, this prospectus may qualify the issuance of Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to published rates of a central banking authority or one or more financial institutions, such as a prime rate or bankers' acceptance rate, or to recognized market benchmark interest rates such as LIBOR, EURIBOR or a U.S. Federal funds rate.

The Debt Securities may be issued under the Indenture bearing no interest or at a discount below their stated principal amount. Canadian federal and U.S. federal income tax consequences and other special considerations applicable to any such discounted Debt Securities or other Debt Securities offered and sold at par which are treated as having been issued at a discount for Canadian federal and/or U.S. federal income tax purposes will be described in a prospectus supplement.

Ranking and Other Indebtedness

Unless otherwise indicated in an applicable prospectus supplement (i) the Debt Securities will be unsecured obligations and will rank equally with all of our other unsecured and unsubordinated debt from time to time outstanding and equally with other securities issued under the Indenture and (ii) the Debt Securities will be structurally subordinated to all existing and future liabilities, including trade payables and other indebtedness, of our subsidiaries.

Form, Denominations and Exchange

A series of the Debt Securities may be issued solely as registered securities, solely as bearer securities or as both registered securities and bearer securities. Registered securities will be issuable in denominations of US\$1,000 and any integral multiple thereof and bearer securities will be issuable in denominations of US\$5,000 or, in each case, in such other denominations (which may be Cdn.\$) as may be set out in the terms of the Debt Securities of any particular series. The Indenture will provide that a series of the Debt Securities may be issuable in global form. Unless otherwise indicated in a prospectus supplement, bearer securities will have interest coupons attached.

Registered securities of any series will be exchangeable for other registered securities of the same series and of a like aggregate principal amount and tenor of different authorized denominations. If, but only if, provided in a prospectus supplement, bearer securities (with all unmatured coupons, except as provided below, and all matured coupons in default) of any series may be exchanged for registered securities of the same series of any authorized denominations and of a like aggregate principal amount and tenor. In such event, bearer securities surrendered in a permitted exchange for registered securities between a regular record date or a special record date and the relevant date for payment of interest shall be surrendered without the coupon relating to such date for payment of interest, and interest will not be payable on such date for payment of interest in respect of the registered security issued in exchange for such bearer security, but will be payable only to the holder of such coupon when due in accordance with the terms of the Indenture. Unless otherwise specified in a prospectus supplement, bearer securities will not be issued in exchange for registered securities.

The applicable prospectus supplement may indicate the places to register a transfer of the Debt Securities. Except for certain restrictions set forth in the Indenture, no service charge will be made for any registration of transfer or exchange of the Debt Securities, but we may, in certain instances, require a sum sufficient to cover any tax or other governmental charges payable in connection with these transactions.

We shall not be required to:

- issue, register the transfer of or exchange any series of the Debt Securities during a period beginning at the opening of business 15 days before any selection of that series of the Debt Securities to be redeemed and ending at the close of business on, (A) if the series of the Debt Securities are issuable only as registered

securities, the day of mailing of the relevant notice of redemption and (B) if the series of the Debt Securities are issuable as bearer securities, the day of the first publication of the relevant notice of redemption or, if the series of the Debt Securities are also issuable as registered securities and there is no publication, the mailing of the relevant notice of redemption;

- register the transfer of or exchange any registered security, or portion thereof, called for redemption, except the unredeemed portion of any registered security being redeemed in part;
- exchange any bearer security selected for redemption, except that, to the extent provided with respect to such bearer security, such bearer security may be exchanged for a registered security of that series and like tenor, provided that such registered security shall be immediately surrendered for redemption with written instruction for payment consistent with the provisions of the Indenture; or
- issue, register the transfer of, or exchange any of the Debt Securities which have been surrendered for repayment at the option of the holder, except the portion, if any, thereof not to be so repaid.

Global Securities

A series of the Debt Securities may be issued in whole or in part in global form as a “global security” and will be registered in the name of and be deposited with a depository, or its nominee, each of which will be identified in the prospectus supplement relating to that series. Unless and until exchanged, in whole or in part, for the Debt Securities in definitive registered form, a global security may not be transferred except as a whole by the depository for such global security to a nominee of the depository, by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of the successor.

The specific terms of the depository arrangement with respect to any portion of a particular series of the Debt Securities to be represented by a global security will be described in a prospectus supplement relating to such series. We anticipate that the following provisions will apply to all depository arrangements.

Upon the issuance of a global security, the depository therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of the Debt Securities represented by the global security to the accounts of such persons, designated as “participants”, having accounts with such depository or its nominee. Such accounts shall be designated by the underwriters, dealers or agents participating in the distribution of the Debt Securities or by us if such Debt Securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depository therefor or its nominee (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants). The laws of some jurisdictions may require that certain purchasers of Debt Securities take physical delivery of the Debt Securities in definitive form.

So long as the depository for a global security or its nominee is the registered owner of the global security, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by the global security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a global security will not be entitled to have a series of the Debt Securities represented by the global security registered in their names, will not be entitled to receive payment related to the Debt Securities, will not receive or be entitled to receive physical delivery of such series of the Debt Securities in definitive form and will not be considered the owners or holders thereof under the Indenture.

If a depository for a global security representing a particular series of the Debt Securities is at any time unwilling or unable to continue as depository and we do not appoint a successor depository within 90 days, we will issue such series of Debt Securities in definitive form in exchange for a global security representing such series of Debt Securities. In addition, we may at any time and in our sole discretion determine not to have a series of Debt Securities represented by a global security and, in such event, will issue a series of Debt Securities in definitive form in exchange for all of the global securities representing the series of Debt Securities.

Payment

Unless otherwise indicated in a prospectus supplement, payment of principal of, and premium, if any, and interest, if any, on, the Debt Securities will be required to be made at the office or agency of the Trustee, or at our option we can pay principal, interest, if any, and premium, if any, (1) by check mailed or delivered to the address of the person entitled as the address appearing in the security register of the Trustee, or (2) from time to time, by electronic funds transfer to an account designated by the person entitled to receive payments.

Unless otherwise indicated in a prospectus supplement, payment of any interest will be required to be made to the persons in whose name the Debt Securities are registered at the close of business on the day or days specified by us.

Any payments of principal, premium or interest, if any, on global securities registered in the name of a depository or its nominee will be required to be made to the depository or its nominee, as the case may be, as the registered owner of the global security representing such Debt Securities. None of the Company, the Trustee or any paying agent for the Debt Securities represented by the global securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the depository for a global security or its nominee will, upon receipt of any payment of principal, premium or interest, credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of such depository or its nominee. We also expect that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with Securities held for the accounts of customers registered in "street name", and will be the responsibility of such participants.

Consolidation, Amalgamation, Merger and Sale of Assets

The Indenture will generally permit the Company to amalgamate or consolidate with or merge with any other person, and to transfer or dispose of substantially all of its assets, so long as the resulting person is a Canadian or U.S. entity and will assume the Company's obligations on the Debt Securities and under the Indenture and the Company or such successor person will not be in default under the Indenture immediately after the transaction.

If the resulting person assumes the Company's obligations, the Company will be relieved of those obligations, subject to certain exceptions.

Additional Amounts

Unless otherwise specified in a prospectus supplement, all payments made by or on behalf of us under or with respect to the Debt Securities will be required to be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto) imposed or levied by or on behalf of the Government of Canada or any province or territory thereof or by any authority or agency therein or thereof having power to tax (" **Canadian Taxes** "), unless we are required to withhold or deduct Canadian Taxes by law or by the interpretation or administration thereof. If we are so required to withhold or deduct any amount for or on account of Canadian Taxes from any payment made under or with respect to the Debt Securities, we will pay to each holder of such Debt Securities as additional interest such additional amounts (" **Additional Amounts** ") as may be necessary so that the net amount received by each such holder after such withholding or deduction (and after deducting any Canadian Taxes on such Additional Amounts) will not be less than the amount such holder would have received if such Canadian Taxes had not been withheld or deducted. However, no Additional Amounts will be payable with respect to a payment made to a holder of Debt Securities (such holder, an " **Excluded Holder** ") in respect of the beneficial owner thereof:

- with which we do not deal at arm's length (within the meaning of the *Income Tax Act* (Canada) (the " **Tax Act** ")) at the time of making such payment;
- which is subject to such Canadian Taxes by reason of the beneficial owner of the Debt Securities being a resident of, or carrying on business in, or maintaining a permanent establishment or other physical presence or taxable presence in, or otherwise having some connection with, Canada or any province or territory thereof, otherwise than by the mere holding of Debt Securities or the receipt of payments thereunder;

Table of Contents

- which is subject to such Canadian Taxes by reason of the beneficial owner of the Debt Securities failing to comply with any certification, identification, documentation or other reporting requirements if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Canadian Taxes; or
- which is a “specified non-resident shareholder” of the Company, or not dealing at arm’s length with a “specified shareholder” of the Company, for purposes of subsection 18(5) of the Tax Act.

We will also be required to (i) make such withholding or deduction and (ii) remit the full amount deducted or withheld to the relevant authority in accordance with applicable law.

We will be required to furnish to the holders of the Debt Securities, within 60 days after the date the payment of any Canadian Taxes is due pursuant to applicable law, certified copies of tax receipts or other documents evidencing such payment by us.

We will be required to indemnify and hold harmless each holder of Debt Securities (other than an Excluded Holder) and upon written request reimburse each such holder for the amount, excluding any payment of Additional Amounts by us, of:

- any Canadian Taxes levied or imposed and paid by such holder as a result of payments made under or with respect to the Debt Securities;
- any interest, penalties or other expenses imposed by a relevant authority in connection with any Canadian Taxes that are subject to reimbursement under the first bulleted item; and
- any Canadian Taxes imposed with respect to any reimbursement under the first two bulleted items above this paragraph,

but excluding any such Canadian Taxes on such holder’s net income or capital.

Wherever in the Indenture there is mentioned, in any context, the payment of principal (and premium, if any), interest or any other amount payable under or with respect to a Debt Security, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Tax Redemption

Unless otherwise specified in a prospectus supplement, a series of Debt Securities will be subject to redemption at any time, in whole but not in part, at a redemption price equal to the principal amount thereof together with accrued and unpaid interest, if any, to the date fixed for redemption, upon the giving of a notice as described below, if we (or our successor) determine that (i) as a result of (A) any amendment to or change in the laws (or any regulations thereunder) of Canada (or our successor’s jurisdiction of organization) or of any political subdivision or taxing authority thereof or therein, as applicable, or (B) any amendment to or change in an interpretation or application of such laws or regulations by any legislative body, court, governmental agency or regulatory authority (including the enactment of any legislation and the publication of any judicial decision or regulatory determination), which amendment or change is announced or becomes effective on or after the date specified in the applicable prospectus supplement (or the date a party organized in a jurisdiction other than Canada or the United States becomes our successor), we have or will become obligated to pay, on the next succeeding date on which interest is due, additional amounts with respect to any Debt Security of such series as described under “Additional Amounts”, or (ii) on or after the date specified in the applicable prospectus supplement (or the date a party organized in a jurisdiction other than Canada or the United States becomes our successor), any action has been taken by any taxing authority of, or any decision has been rendered by a court of competent jurisdiction in, Canada (or our successor’s jurisdiction of organization) or any political subdivision or taxing authority thereof or therein, including any of those actions specified in (i) above, whether or not such action was taken or decision was rendered with respect to us, or any change, amendment, application or interpretation shall be officially proposed, which, in any such case, in the written opinion to us of legal counsel of recognized standing, will result in our becoming obligated to pay, on the next succeeding date on which interest is due, Additional Amounts with respect to any Debt Security of such series.

Table of Contents

In the event that we elect to redeem a series of the Debt Securities pursuant to the provisions set forth in the preceding paragraph, we shall deliver to the Trustee a certificate, signed by an authorized officer, stating that we are entitled to redeem such series of the Debt Securities pursuant to their terms.

Notice of intention to redeem such series of our Debt Securities will be required to be given not more than 60 nor less than 30 days prior to the date fixed for redemption and will be required to specify the date fixed for redemption, provided that, at the time such notice of redemption is given, the obligation to pay such Additional Amounts must continue to be in effect. Such notice may be conditional.

Provision of Financial Information

We will be required to file with the Trustee, within 30 days after we file or furnish them with the SEC, copies of our annual reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may by rules and regulations prescribe) that we may be required to file or furnish with the SEC pursuant to Section 13 or 15(d) of the Exchange Act.

Events of Default

When we use the term “event of default” in the Indenture with respect to any series of Debt Securities, we mean:

- failure to pay principal of, or any premium on, any Debt Security, or any Additional Amounts related thereto, of that series when it is due;
- failure to pay interest or any Additional Amounts related thereto on any Debt Security of that series for 30 days from the date such amounts are due;
- failure to comply with any other covenant or warranty of the Company contained in the Indenture (other than a covenant added to the Indenture solely for the benefit of a series of Debt Securities other than that series) for 60 days after written notice to us by the Trustee or to us and the Trustee by holders of at least 25% in aggregate principal amount of the outstanding Debt Securities of that series;
- default under any bond, note, debenture or other evidence of indebtedness of or guaranteed by the Company or one of its subsidiaries or under any mortgage, indenture or other instrument of the Company or one of its subsidiaries under which there may be issued or by which there may be secured or evidenced any indebtedness of the Company or one of its subsidiaries that results in the acceleration of such indebtedness in an aggregate principal amount exceeding US\$15,000,000 (or the equivalent thereof in any other currency or currency unit) but only if such indebtedness is not discharged or such acceleration is not rescinded or annulled within 30 days after notice to the Company by the Trustee or to the Company and the Trustee by the holders of at least a majority of the aggregate principal amount of the outstanding Debt Securities of such series;
- certain events involving our bankruptcy or insolvency; and
- any other event of default provided for in that series of Debt Securities.

A default under one series of Debt Securities will not necessarily be a default under another series. The Trustee may withhold notice to the holders of Debt Securities of any default (except in the payment of principal, premium, if any, or interest or Additional Amounts, if any, related thereto) if in good faith it considers it in the interests of the holders to do so.

If an event of default for any series of Debt Securities occurs and continues, the Trustee or the holders of at least 25% in aggregate principal amount of the Debt Securities of that series, subject to any subordination provisions, may require us to repay immediately:

- the entire principal of, accrued interest, premium, if any, and Additional Amounts, if any, on, the Debt Securities of the series; or
- if the Debt Securities are discounted Securities, that portion of the principal as is described in the prospectus supplement and Indenture.

Table of Contents

If an event of default relates to events involving our bankruptcy or insolvency, the principal of all Debt Securities will become immediately due and payable without any action by the Trustee or any holder.

Subject to certain conditions, the holders of a majority of the aggregate principal amount of the Debt Securities of the affected series can rescind any accelerated payment requirement.

Other than its duties in case of a default, the Trustee is not obligated to exercise any of its rights or powers under the Indenture at the request, order or direction of any holders, unless the holders offer the Trustee reasonable indemnity. If they provide this reasonable indemnity, the holders of a majority in principal amount of any series of Debt Securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding or any remedy available to the Trustee, or exercising any power conferred upon the Trustee, for any series of Debt Securities.

We will be required to furnish to the Trustee a statement annually as to our compliance with all conditions and covenants under the Indenture and, if we are not in compliance, we must specify any defaults. We will also be required to notify the Trustee as soon as practicable upon becoming aware of any event of default.

No holder of a Debt Security of any series will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or a trustee, or for any other remedy, unless:

- the holder has previously given to the Trustee written notice of a continuing event of default with respect to the Debt Securities of the affected series;
- the holders of at least 25% in principal amount of the outstanding Debt Securities of the series affected by an event of default have made a written request, and the holders have offered reasonable indemnity, and a deposit if required, to the Trustee to institute a proceeding as Trustee; and
- the Trustee has failed to institute a proceeding, and has not received from the holders of a majority in aggregate principal amount of the outstanding Debt Securities of the series affected by an event of default a direction inconsistent with the request, within 60 days after their notice, request and offer.

However, the above limitations do not apply to a suit instituted by a holder of Debt Securities for the enforcement of payment of principal of, premium, if any, or interest or Additional Amounts, if any, related thereto on, a Debt Security on or after the applicable due date specified in the Debt Security.

Defeasance

When we use the term “defeasance” in this prospectus, we mean discharge from some or all of our obligations under the Indenture. If we deposit with the Trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity date or a redemption date of the Debt Securities of a series, then at our option:

- we will be discharged from our obligations with respect to the Debt Securities of that series; or
- we will no longer be under any obligation to comply with certain restrictive covenants under the Indenture, and certain events of default will no longer apply to us.

If this happens, the holders of the Debt Securities of the affected series will not be entitled to the benefits of the Indenture except for registration of transfer and exchange of Debt Securities and the replacement of lost, stolen or mutilated Debt Securities. These holders may look only to the deposited fund for payment on their Debt Securities.

To exercise our defeasance option, the following conditions must be met:

- no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred and be continuing for the Debt Securities of the affected series;
- we are not “insolvent” within the meaning of applicable bankruptcy and insolvency legislation; and
- other customary conditions precedent are satisfied.

Modification and Waiver

Modifications and amendments of the Indenture may be made by us and the Trustee with the consent of the holders of a majority in principal amount of the outstanding Debt Securities of each series issued under the Indenture affected by such modification or amendment (voting as one class); provided, however, that no such modification or amendment may, without the consent of the holder of each outstanding Debt Security of such affected series:

- change the stated maturity of the principal of (or premium, if any), or any installment of interest, if any, on any Debt Security;
- reduce the principal amount of, or the premium, if any, or interest rate, if any, on any Debt Security;
- change the place of payment;
- change the currency or currency unit of payment of principal of (or premium, if any) or interest, if any, on any Debt Security;
- impair the right to institute suit for the enforcement of any payment on or with respect to any Debt Security;
- reduce the percentage of principal amount of outstanding Debt Securities of such series, the consent of the holders of which is required for modification or amendment of the applicable Indenture or for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults; or
- modify any provisions of the Indenture relating to the modification and amendment of the Indenture or the waiver of past defaults or covenants except as otherwise specified in the Indenture.

The holders of a majority in principal amount of the outstanding Debt Securities of any series may, on behalf of the holders of all Debt Securities of that series, waive, insofar as that series is concerned, compliance by us with certain restrictive provisions of the Indenture. The holders of a majority in principal amount of outstanding Debt Securities of any series may waive any past default under the Indenture with respect to that series, except a default in the payment of the principal of (or premium, if any) and interest, if any, on any Debt Security of that series or in respect of a provision under the Indenture that cannot be modified or amended without the consent of the holder of each outstanding Debt Security of that series. The Indenture or the Debt Securities may be amended or supplemented, without the consent of any holder of such Debt Securities, in order to, among other things, cure any ambiguity or inconsistency or to make any change that, in each case, does not adversely affect the rights of any holder of such Debt Securities.

We may modify the Indenture without the consent of the holders to:

- evidence our successor under the Indenture;
- add covenants or surrender any right or power for the benefit of holders;
- secure any Debt Securities;
- add events of default;
- establish the forms of the Debt Securities;
- appoint a successor Trustee under the Indenture;
- add provisions to permit or facilitate the defeasance or discharge of the Debt Securities as long as there is no material adverse effect on the holders thereof;
- correct any ambiguity or correct or supplement any defective or inconsistent provision or alter any other provisions; in each case that would not adversely affect the rights of holders of outstanding Securities and related coupons, if any;
- comply with any applicable laws of the United States and Canada in order to effect and maintain the qualification of the Indenture under the *Trust Indenture Act* and the *Canada Business Corporations Act*, subject to obtaining an exemption from the requirements of the latter, if required; or
- change or eliminate any provisions where such change takes effect when there are no Securities outstanding under the Indenture.

Table of Contents

Resignation of Trustee

The Trustee may resign or be removed with respect to one or more series of the Debt Securities and a successor Trustee may be appointed to act with respect to such series. In the event that two or more persons are acting as Trustee with respect to different series of Debt Securities, each such Trustee shall be a Trustee of a trust under the Indenture separate and apart from the trust administered by any other such Trustee, and any action described herein to be taken by the “Trustee” may then be taken by each such Trustee with respect to, and only with respect to, the one or more series of Debt Securities for which it is Trustee.

Consent to Jurisdiction and Service

If the Debt Securities are governed by the laws of the State of New York, we will irrevocably appoint CT Corporation System as our authorized agent for service of process in any suit or proceeding arising out of or relating to the Debt Securities or the Indenture and for actions brought under federal or state securities laws in any federal or New York state court located in the Borough of Manhattan in the City of New York, and we irrevocably submit to the non-exclusive jurisdiction of such courts.

PLAN OF DISTRIBUTION

The Company may sell the Securities to or through underwriters or dealers, and, subject to applicable securities laws, may also sell Securities to one or more other purchasers directly or through agents, including sales pursuant to ordinary brokerage transactions and transactions in which a broker dealer solicits purchasers.

The Securities may be sold, from time to time in one or more transactions at a fixed price or prices that may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices, including sales in transactions that are deemed to be “at-the-market distributions” as defined in National Instrument 44-102 *Shelf Distributions*, including sales made directly on the TSX, NYSE MKT or other existing trading markets for the Securities. The prices at which the Securities may be offered may vary as between purchasers and during the period of distribution. If, in connection with the offering of Securities at a fixed price or prices, the underwriters have made a bona fide effort to sell all of the Securities at the initial offering price fixed in the applicable prospectus supplement, and have been unable to do so, the public offering price may be decreased and thereafter further changed, from time to time, to an amount not greater than the initial public offering price fixed in such prospectus supplement, in which case the compensation realized by the underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters to the Company.

Underwriters, dealers or agents who participate in the distribution of the Securities may be entitled, under agreements to be entered into with the Company, to indemnification by the Company against certain liabilities, including liabilities under the Exchange Act and Canadian securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Company in the ordinary course of business.

In connection with any offering of Securities, other than an “at-the-market distribution”, the underwriters, dealers or agents may over-allot or effect transactions which stabilize or maintain the market price of the Securities offered at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

The applicable prospectus supplement will state the terms of the offering, including the name or names of any underwriters, dealers or agents, the initial offering price (in the event that the offering is a fixed price distribution), the

Table of Contents

manner of determining the initial offering price(s) (in the event the offering is made at prices which may be changed, at market prices prevailing at the time of the sale, at prices related to such prevailing market prices or at negotiated prices), the proceeds to the Company from the sale of the Securities, any underwriting discount or commission and any discounts, concessions or commissions allowed or reallocated or paid by any underwriter to other underwriters, dealers or agents. Any initial offering price and discounts, concessions or commissions allowed or reallocated or paid to dealers may be changed from time to time.

INCOME TAX CONSIDERATIONS

The applicable prospectus supplement will describe certain material Canadian federal income tax consequences to an investor who acquires any Securities offered thereunder. The applicable prospectus supplement will also describe certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of any Securities offered under this prospectus by an initial investor who is a U.S. Holder. As used herein, the term “U.S. Holder” means a beneficial holder of Securities that is for United States federal income tax purposes (i) a citizen or individual resident of the United States, (ii) a corporation (or any entity that is treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States or any political subdivision thereof, (iii) an estate the income of which is subject to United States federal income taxation regardless of its source, or (iv) a trust (X) that is subject to the supervision of a court within the United States and the control of one or more United States persons or (Y) that has an election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

LEGAL MATTERS

Certain legal matters in connection with the Securities offered hereby will be passed upon on behalf of the Company by Stikeman Elliott LLP, with respect to Canadian legal matters, and by Skadden, Arps, Slate, Meagher & Flom LLP, with respect to United States legal matters. As at the date hereof, the partners and associates of Stikeman Elliott LLP as a group beneficially own, directly or indirectly, less than one percent of the outstanding securities of the Company.

AUDITORS, TRANSFER AGENTS AND REGISTRAR

The Company’s auditors are KPMG LLP, Chartered Accountants, Bay Adelaide Centre, Suite 4600, 333 Bay Street, Toronto, Ontario, M5H 2S5. KPMG LLP are the auditors of the Company and have confirmed that they are independent with respect to the Company within the meaning of the Rules of Professional Conduct of the Institute of Chartered Accountants of Ontario and within the meaning of the U.S. Securities Act of 1933 and the applicable rules and regulations thereunder adopted by the Securities and Exchange Commission and the Public Company Accounting Oversight Board (United States).

ENFORCEABILITY OF CIVIL LIABILITIES

The Company is a corporation existing under the *Canada Business Corporations Act*. Many of the Company's directors and officers, and some of the experts named in this prospectus, are residents of Canada or otherwise reside outside the United States, and all or a substantial portion of their assets, and a substantial portion of the Company's assets, are located outside the United States. The Company has appointed an agent for service of process in the United States (as set forth below), but it may be difficult for holders of Securities who reside in the United States to effect service within the United States upon those directors, officers and experts who are not residents of the United States. It may also be difficult for holders of Securities who reside in the United States to realize in the United States upon judgments of courts of the United States predicated upon the Company's civil liability and the civil liability of such directors, officers and experts under the United States federal securities laws.

The Company filed with the SEC, concurrently with its registration statement on Form F-10 of which this prospectus is a part, an appointment of agent for service of process on Form F-X. Under the Form F-X, the Company appointed CT Corporation System as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving the Company in a United States court arising out of or related to or concerning the offering of the Securities under this prospectus. The Company has been advised by Stikeman Elliott LLP, its Canadian counsel, that there is doubt as to the enforceability, in original actions in Canadian courts, of liabilities based upon United States federal securities laws and, depending on the circumstances, as to the enforceability in Canadian courts of judgments of United States courts obtained in actions based upon civil liability provisions of the United States federal securities laws or other laws of the United States or any state thereof or the equivalent laws of other jurisdictions. Therefore, it may not be possible to enforce those actions against the Company, its directors and officers.

GLOSSARY OF MINING TERMS

“concentrate” means a product containing the valuable metal and from which most of the waste material in the ore has been removed.

“grade” means a particular quantity of ore or mineral relative to other constituents, in a specified quantity of rock.

“indicated resource” means that part of a mineral resource for which quantity, grade or quality, densities, shape and physical characteristics can be estimated with a level of confidence sufficient to allow the appropriate application of technical and economic parameters to support mine planning and evaluation of the economic viability of the deposit. The estimate is based on detailed and reliable exploration and testing information gathered through appropriate techniques from locations such as outcrops, trenches, pits, workings and drill holes that are spaced closely enough for geological and grade continuity to be reasonably assumed.

“inferred resource” means that part of a mineral resource for which quantity and grade or quality can be estimated on the basis of geological evidence and limited sampling and reasonably assumed, but not verified, geological and grade continuity. The estimate is based on limited information and sampling gathered through appropriate techniques from locations such as outcrops, trenches, pits, workings and drill holes.

“measured resource” means that part of a mineral resource for which quantity, grade or quality, densities, shape and physical characteristics are so well established that they can be estimated with confidence sufficient to allow the appropriate application of technical and economic parameters to support production planning and evaluation of the economic viability of the deposit. The estimate is based on detailed and reliable exploration, sampling and testing information gathered through appropriate techniques from locations such as outcrops, trenches, pits, workings and drill holes that are spaced closely enough to confirm both geological and grade continuity.

“mineral reserve” means the economically mineable part of a measured or indicated resource demonstrated by at least a preliminary feasibility study. This study must include adequate information on mining, processing, metallurgical, economic and other relevant factors that demonstrate, at the time of reporting, that economic extraction can be justified. A mineral reserve includes diluting materials and allowances for losses that may occur when the material is mined.

“mineral resource” means a concentration or occurrence of natural, solid, inorganic or fossilized organic material in or on the earth’s crust in such form and quantity and of such a grade or quality that it has reasonable prospects for economic extraction. The location, quantity, grade, geological characteristics and continuity of a mineral resource are known, estimated or interpreted from specific geological evidence and knowledge.

“mineralization” means the concentration of metals and their chemical compounds within a body of rock.

“open pit” means a mine worked at the surface.

“ore” means a mixture of valuable and worthless minerals from which at least one of the minerals can be mined and processed at an economic profit.

“ounce” or **“oz”** is a unit of weight measure. In the precious metals industry a troy ounce is equal to one-twelfth part of a pound or 31.103 grams.

“preliminary economic assessment” or **“scoping study”** means the first level of study that is performed on a mineral deposit to determine its economic viability.

“probable mineral reserve” means the economically mineable part of an indicated, and in some circumstances a measured, mineral resource demonstrated by at least a preliminary feasibility study. This study must include adequate information on mining, processing, metallurgical, economic, and other relevant factors that demonstrate, at the time of reporting, that economic extraction can be justified.

“proven mineral reserve” means the economically mineable part of a measured mineral resource demonstrated by at least a preliminary feasibility study. This study must include adequate information on mining, processing, metallurgical, economic, and other relevant factors that demonstrate, at the time of reporting, that economic extraction is justified.

PART II

INFORMATION NOT REQUIRED TO BE DELIVERED TO OFFEREES OR PURCHASERS

Indemnification of Directors and Officers.

The *Canada Business Corporations Act* provides generally that a corporation may indemnify a director or officer against all costs, charges and expenses of any civil, criminal, administrative, investigative or other proceeding to which he or she is made a party by reason of being a director or officer, where the director or officer: (a) acted honestly and in good faith with a view to the best interests of the corporation and (b) in the case of a criminal or administrative action or proceeding that is enforced by monetary penalty, the director or officer had reasonable grounds for believing that the conduct was lawful. Where an officer or director has met the conditions set out under (a) and (b) above and was not judged by the court or other competent authority in such a proceeding to have committed any fault or omitted to do anything that the individual ought to have done, such officer or director is entitled to indemnification from the corporation for such costs, charges and expenses which were reasonably incurred.

Our by-laws provide that we shall indemnify directors and officers to the extent permitted by law. We have entered into agreements with our directors and officers to indemnify them, to the extent permitted by law and subject to certain limitations, against all costs reasonably incurred by any such director or officer in an action or proceeding to which the director or officer was made a party by reason of being a director or officer.

We maintain insurance policies relating to certain liabilities that our directors and officers may incur in such capacity. The directors and officers are not required to pay any premium in respect of the insurance. The policies contain standard industry exclusions and no claims have been made thereunder to date.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the Registrant pursuant to the foregoing provisions, the Registrant has been informed that in the opinion of the U.S. Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.
